REPORT

ON THE

ADMINISTRATION OF COORG,

FOR 1881—82.

PART I.

GENERAL SUMMARY.

The changes in the Administration of Coorg consequent on the Rendition of Mysore to Native Rule were briefly noticed in the Summary of the Report of 1880—81.

2. The Chief Commissioner now discharges in addition to his proper duties the combined functions of Inspector General of Prisons and Police, Director of Public Instruction, and Conservator of Forests, for, in a small Province like Coorg it is unnecessary to have separate officers at the head of each of these departments.

3. The survey work which remains to be done is of a miscellaneous nature, and on it a small permanent establishment is employed consisting of five superior and eleven inferior persons, and a temporary establishment was entertained for six months consisting of one Deputy Surveyor and three peons. It is under contemplation to survey the bane lands in Coorg and should this be approved an additional establishment will be needed.

4. The area of waste lands taken up for coffee cultivation exceeds that of the previous year, but the resignations are greater than what has thus been taken up, and on the whole coffee cultivation shows no progress.

5. A Special Regulation relating to the Courts in Coorg was passed, and Act XXX of 1852 for the Naturalization of Aliens was extended to the Province during the year under review. The other Acts which came into force related to Excise, Indian Trusts, and Negotiable Instruments.

6. The constitution and strength of the Police Force remained unaltered. The cost was Rs. 6,425 more than in the previous year, owing chiefly to the construction of Police stations, and the purchase of rifles and swords for the Jail and Treasury guards. The question of the reorganization of the Force, so as to raise it to a standard and strength suitable to the altered requirements of the Province, has been dealt with, but this will more properly form the subject of report in 1882—83.

7. Previous to the year under review the functions of Sessions Judge were discharged by an officer of the Mysore Commission, but now the Commissioner has been invested with these powers, and the 1st Assistant Commissioner has been made District Magistrate; otherwise the constitution of the Criminal Courts remains the same as before. The expenditure has increased by Rs. 8,393 which is accounted for chiefly by the fact of the whole of the pay of the District Magistrate, (a portion of which was formerly borne by Mysore,) having been debited to Coorg and paid in 1881 with arrears for 1880. The Commissioner's pay also, for a portion of the previous year, was paid in 1881. The receipts on the other hand were only Rs. 929 more than that of the previous year. The number of offences reported increased by 54, and the Courts displayed greater activity in disposing of them, but the number of appeals to the Judicial Commissioner rose from 6 to 16.

8. There was a decrease in the number of prisoners confined in the Jail and Lock-ups, and their health was better than in the previous year. Fewer punishments for breaches of jail discipline were awarded, but there was a slight falling off in the number under instruction. The cost of each prisoner, deducting the net proceeds derived from jail manufactures, was Rs. 82 or 5 more than in the year previous.

9. The only change effected in the Civil tribunals was the abolition of the Civil Court of the 1st Assistant Commissioner reducing the number to seventeen. The statistics show that the work in these Courts is considerably increasing, the number of suits instituted during the year being 2,839 or 761 more than in the previous year; their aggregate value was nearly double, but this is due to the very large value of a single suit. The duration of contested suits was less and proportionately there is a diminution in the number of appeals which is a satisfactory sign. The number of processes issued and the net profits realized thereon both increased by about one-fourth over the figures of the previous year.

10. Although it was remarked in last year's Summary that the number of registrations in Coorg do not increase, the statistics of the present year show that they have done so to the amount of 69, while their value exceeds thirteen lakhs, or nearly five lakhs more than last year. The income naturally increased and the expenditure on income fell to 39 per cent, or about 10 per cent.

11. The number and constitution of the Municipalities remain the same, but it is in contemplation to introduce some needful reforms in their administration and in the law; but this matter will form the subject of the ensuing year's report. The income rose to Rs. 15,919 or Rs. 1,706 more than in 1880—81. The incidence of taxation varies considerably in the different Municipal towns, but this will doubtless be rectified when the reforms already alluded to are carried out.

12. The only change in the Military Force in Coorg, which is stationed at Mercara, is that the right wing of the 40th Regiment, M. N. I., was relieved by that of the 10th M. N. I. The strength consists of 12 British and Native officers, 42 non-commissioned officers, 321 rank and file, and 57 paid camp followers. It is in contemplation shortly to remove the garrison from Coorg altogether, consequent on the recent reductions in the Madras Army.

13. There is a very slight increase in the area brought under cultivation in 1881—82. The rain-fall was below the average, and the wet crops being entirely dependent thereon suffered considerably. The coffee crop was fairly good, but the prices fell owing probably to a glut in the foreign market. The price of cardamom also fell, but this was compensated for, to a certain extent, by a plentiful yield of that spice. The cultivation of Liberian coffee, after a fair trial, has proved a failure in Coorg. The cultivation of cinchona is being persevered with and more than six lakhs of plants, covering over a square mile in area, are now growing; but owing to fears that there may be a glut of cinchona in the market, the planters feel hesitation in rapidly increasing the propagation so as to make it, like coffee, a paying business. The cultivation of other products introduced into Coorg, such as cocoa, oil plant, rain tree, &c., is purely in its experimental stage. Labor was found to be plentiful during the year under review.

14. The want of some reform in the Forest law for Coorg has been felt for some time, and it is hoped will be shortly supplied. The area of the Reserved forests remains the same, and the demarcation of the Ghat forests has been completed. The measures adopted for the protection of forests from fire were not so successful as in the previous year, the failures amounting to no less than 62 per cent of the area attempted to be protected. The surplus for the year amounted to Rs. 40,506 or Rs. 9,136 more than that of the previous year in spite of the considerable falling off in the realization from sandalwood.

15. No fresh discoveries of mineral products have been made; a few persons have been allowed to prospect for gold, but these efforts have been made without any practical results.

16. Manufacturing industries in the Province will probably not increase. The great demand for labor for agricultural purposes, and the high rate of wages obtaining

not only attract the available resident population, but also emigrants from Mysore and other parts. The only manufactory worthy of the name is a Tilery established at Mercara by a European; the tiles produced are of excellent quality, and are in considerable demand.

17. The trade returns do not show much activity and there has been a general falling off both in the exports and imports. The consumption of European liquor however appears to have increased.

18. Irrigation projects form no part of the public works of the Province, the copious rain-fall and the physical features of the country combining to render them unnecessary. Good communications are more required at present than any other public works in Coorg, and the attention of the Department is therefore principally concentrated on them. Out of an Imperial grant of Rs. 1,60,000 a sum of Rs. 1,49,194 was expended during the year, of which no less a sum than Rs. 88,529 were spent on communications. The most important work in contemplation is the construction of a bridge over the Cauvery river on the Mercara-Siddapur road. The sanction of the Government of India has since been obtained to the estimate and nothing remains but to push on the work to completion. The District Fund grant was Rs. 22,266, of which Rs. 16,088 were expended; the outlay incurred on civil budget works was Rs. 2,048, making the total expenditure Rs. 1,67,330 or Rs. 11,661 more than in the previous year.

19. The sixteen District Post Offices in the Province are on the same plan as the other Imperial Sub-Post Offices in British India. The total receipts were nearly Rs. 16,000 and the expenditure about Rs. 13,500. The service is capable of improvement. The Coorg Planters' Association proposed establishing a Tonga Dâk company between the towns of Mysore and Mercara to carry the mails and thus accelerate delivery which is at present somewhat slow, provided Government subsedized the venture; the matter has received favorable consideration and it is hoped will be soon carried out, but starting the company rests with the planters themselves.

20. After deducting the sums which were irrecoverable, the balance outstanding at the close of the previous year amounted to Rs. 1,89,037 which, added to the demand for the year, *viz.*, Rs. 7,12,110, brought up the total amount for collection to Rs. 9,01,147. The realizations amounted to Rs. 6,47,494, leaving a balance of Rs. 2,53,653 at the close of the year for collection. Owing to the system of payments by instalments which prevails, the greater portion of this sum properly falls due in the course of the ensuing year, and no less an amount than Rs. 1,22,762 was recovered by the end of June 1882. The net imperial surplus revenues on actual collections for the year is only Rs. 76,780 against Rs. 2,40,476 of the year previous; but this does not mean a falling off in the revenue, the demand showing an increase in all items except forests, but is due rather to short collections and consequent large outstandings at the close of the year. The land revenue has hitherto been collected in five instalments, but this subject has been under consideration recently and the rules have been revised and will come into force in 1883—84.

21. The balance outstanding on account of District Funds was Rs. 1,143 and the demand Rs. 29,263, making a total of Rs. 30,406. Net collections amounted to Rs. 28,459 and the expenditure is shown as Rs. 43,420, but this includes the money spent in previous years and adjusted in the year under review. The Municipal income shows a small increase and the balance to credit at the close of the year is Rs. 13,517.

22. There is an appreciable increase in the ratio of births indicating a more accurate system of registration, which however is susceptible of still further improvement, and instructions with this object in view have been issued since the close of the year under review. The death rate shows a decrease, but for all that it is in excess of the births which is unsatisfactory, and is probably attributable to the inaccuracy of the returns. The health of the population was on the whole good, and there was scarcely any cholera or small-pox.

23. The number of patients treated in the Hospitals and Dispensaries was 9,094 or 2,360 less than in 1880. This decrease is attributable to the healthier state of the Province.

Sanitary improvements have been effected in a small way in some of the Municipal towns.

Vaccination shows a decided advance. The number of operations performed was 4,887 or more than 1,000 in excess of the previous year and the successful cases were no less than 90 per cent of the number operated upon.

24. Education shows a steady advance in all directions. Four new schools were established, the attendance rose to 3,233 or 441 more than in 1880, and the fees realized exceeded that of the previous year by Rs. 253. The Principal of the High School at Mercara is also the Inspector of Schools for the Province. It is in contemplation to join the District of South Canara in the Madras Presidency to Coorg and thus form a separate Educational Division, and to place the Inspector of the present Coorg Circle in charge of the whole. Several benefits will result from this arrangement, the Inspector's position will be improved as he will be placed on the graded list of Madras Educational Officers, and the schools in Coorg will derive advantage from their head being brought into contact with other School Inspectors, and being placed in a position to adopt any useful reforms which the matured educational system of Madras may suggest.

POLITICAL.

Historical Summary, *vide* paras 24 to 37 of the Report for 1872—73.

Form of Administration, *vide* para 1 of the Report for 1880—81.

II. ADMINISTRATION OF THE LAND.

SURVEYS

In addition to the permanent establishment which consisted of 1 Manager, 1 Clerk, 3 Surveyors, 1 head peon and 10 peons, a Deputy Surveyor and 3 peons at a monthly cost of Rs. 41 were temporarily entertained for six months during the year.

2. One hundred and seven waste land applications and blocks of concealed and unauthorized cultivation of the aggregate area of 2,614·33 acres, as well as 7 Devar Kadus (sacred forests), 25·16 acres in area, have been demarcated and surveyed.

3. The original plots of 118 blocks of waste land applications and concealed cultivation, area 1,628·17 acres, and of 6 Devar Kadus, area 1,131·21 acres, were finally tested in the field before they were lithographed.

4. Two estates have been re-surveyed, and the map of Jainkal Betta, a forest reserve consisting of 952·20 acres, was examined in the field. Besides these, several other works of a miscellaneous nature, such as refixing village and estate boundary stations found to be missing and inspecting estates and their boundaries for administrative and revenue purposes, have been carried out under the immediate orders of the Commissioner of Coorg.

5. One hundred and seven estate maps, area 2,473·96 acres, have been plotted on the scale of 16″ to a mile: 121 estate maps, area 777·46 acres, and 4 Devar Kadu maps, area 1,124·14 acres, have been lithographed, and 1,726 copies in all published together with 18 copies of each of the revised maps of the Arekere and Huttuguttu forest reserves. The total charge incurred during the year for computation, plotting and publication amounted to Rs. 183—5—6.

SETTLEMENTS.

Nil.

WASTE LANDS.

6. The demand for land for the cultivation of cereal crops was not great, as the season was very unfavorable. 336 acres were taken up during the year against 291 resigned, showing a net increase of 45 acres.

7. Three hundred and three acres of forest land were sold under the Waste Land Rules realizing a sum of Rs. 8,553—13—0 at an average of Rs. 27—15—0 per acre. Against this increase has however to be set off 331 acres of land which were resigned as unsuited for coffee, and 262 acres which were resumed for default of payment.

8. The increase in the area taken up for coffee cultivation would have been greater had not a few planters purchased bánes forming part of holdings allowed for rice fields. As such lands were granted originally for other purposes, arrangements are being made to have them surveyed and assessed.

GOVERNMENT ESTATES	..	Nil.
WARDS' ESTATES	..	

III. PROTECTION.

LEGISLATIVE AUTHORITY.

9. *Vide* Report of 1880—81.

COURSE OF LEGISLATURE.

10. Regulation No. I of 1881, repealing, within the limits of the Province of Coorg, Madras Acts I of 1863 and I of 1873, and Regulation No. II of 1881 to amend the law relating to the Courts in the Province of Coorg, were passed and came into force in Coorg in the course of the year 1881. The Local Excise Act No. XXII of 1881 also came into force on the 1st January 1882. Act XXX of 1852, (an Act for the Naturalization of Aliens) was extended under Section 3 of the Scheduled Districts Act XIV of 1874. Act XXVI of 1881, the Negotiable Instruments Act, and Act II of 1882, "The Indian Trusts Act," which apply to the whole of British India, came into force on the 1st March 1882.

POLICE.

11. The Police Force consisted of 5 Parpattegars and Assistant Parpattegars, 3 Daffedars and 46 Constables besides the 5 Patrolling Inspectors employed to prevent coffee stealing. The cost of maintaining the force amounted to Rs. 13,653 or Rs. 6,425 more than that of the previous year. The increase is due to cost of constructing Police stations and purchasing rifles and swords for the Police guards.

12. The number of cognizable cases reported was 426 as against 342. The increase was chiefly in minor offences such as ordinary theft. The number of cases struck off as false was 179 against 119: the percentage of false cases rose from 34·7 to 40·1 of the gross number reported. The percentage of total cases in which convictions were obtained was 29·8 as compared with 34·7 and the percentage of convictions to true cases investigated was 65·12 against 67·23.

13. Of the 515 persons arrested 383 were put on trial resulting in the conviction of 177 compared with 399 arrests, 307 put on trial and 170 convicted in the previous year, and the percentage of persons convicted to persons arrested and persons brought to trial fell from 42·60 and 55·37 to 34·36 and 53·15 respectively.

14. The value of property stolen was Rs. 8,322 or Rs. 4,091 more than in the previous year; while the value recovered was Rs. 1,436 as compared with 1,593 in 1880 or 17·25 per cent which is 20·40 per cent less than in the previous year.

15. Eighteen non-cognizable cases as against 21 in the previous year were inquired into by the Police under the orders of the Magistrates. Of these ten cases were struck off as false and in 6 convictions were obtained; two cases were pending at the close of the year.

CRIMINAL JUSTICE.

16. The most marked feature in the administration of Criminal Justice was the appointment of the Commissioner of Coorg as the Sessions Judge also. The 1st Assistant Commissioner was appointed District Magistrate. With the exception of these changes and the investiture with criminal powers of an additional Parpattegar, the constitution and number of the criminal tribunals in Coorg remained unaltered. The total charges amounted to Rs. 54,994 against Rs. 46,601 in the previous year, while the receipts amounted to Rs. 53,478 as compared with Rs. 52,549 in the preceding year.

17. The number of offences reported during the year was 1,363 against 1,309. Of these 1,139, or 84 per cent, against 77 per cent in 1880, were returned as true, and 1,125 cases were disposed of, with the average duration of 2·68 days for each case, as against 3·2 in the previous year.

18. The number of persons brought to trial was 2,000 against 1,726 in 1880. Of these 821 were prosecuted to conviction. This gives an average of 41·05 per cent as against 49·5 in the previous year. The small proportion of convictions is due to a large number of cases of a civil nature having been improperly brought up before Magistrates as cases of theft and criminal trespass.

19. There was an increase in the appellate work of the Judicial Commissioner's Court, as is evidenced by the number of appeals preferred, which were 16 as against 6 in 1880. All these cases were disposed of in an average duration of 27 days for each case ; but although the number of appeals in the other appellate courts was less, being 27 against 30, the duration of appeals rose from 8 to 10 days.

PRISONS.

20. The total number of prisoners confined in the Mercara Jail and the District Lock-ups during the year was 838 against 942 in 1880. Of this 270 were convicts, 538 under-trials and 30 civil prisoners Of the 538 under-trials admitted 104 were convicted and sentenced, 419 released and 15 remained at the close of the year. The daily average number was 90·60 against 93·08 in the previous year.

21. The health of the prisoners was good, the daily average sick fell from 4·65 to 3·49 and the number of deaths was 5 against 9 in the previous year. Corresponding to the falling off in the number of admissions, there was a decrease in the hospital charges from Rs. 194 to Rs. 126.

22. Forty-one convicts against 47 in the previous year were punished for breach of jail discipline. Seventy convicts, or 1·75 less than in the previous year, were under daily instruction. Of the 70 who were unable to read and write when they entered the Jail, none left without learning to read and write. 95 of those that were released were able to read and write a little and 29 to read and write well.

23. The total charges amounted to Rs. 10,314 against Rs. 10,336, but though the total cost is less, the cost per head of average strength rose, owing to higher prices of provisions, from Rs. 112—6—2 to Rs. 116—13—4.

24. The net proceeds from the Jail Bakery, Printing Press and Manufactures were Rs. 3,804—11—7 against Rs. 3,935—4—1. The starting of a rival bakery by the towns-people has slightly diminished the profits.

CIVIL JUSTICE.

25. The number of civil tribunals was reduced from 18 to 17 by the abolition of the Civil Court of the 1st Assistant Commissioner, who has been made the Magistrate of the District.

26. The number of suits instituted was 2,839 against 2,078. With 33 pending suits there were in all 2,872 suits for disposal, and of these 2,739 were disposed of and 139 were pending.

27. The aggregate and average value of suits rose from Rs. 3,70,595 to Rs. 7,98,078 and 178 to 281 respectively. This marked increase is due to a heavy suit valued at Rs. 4,57,000 brought against a coffee planter.

28. Of the 2,739 suits decided 2,158 were uncontested and only 575 were contested. Of the latter, judgment was given for plaintiff in 447 cases, and for defendant in 128. Of the former, 978, as compared with 732 cases, were decreed *exparte*. The duration of contested suits averaged 26 against 29 days in the previous year, and that of uncontested suits 18 days or the same as in 1880.

29. Although 575 appealable cases were disposed of as against 360 in 1880, only 108 appeals were filed and with the 2 pending from the previous year, there were in all 110 appeals for disposal. Of these 100 were disposed of, leaving 10 pending. Of the contested appeals, the decrees of the lower courts were confirmed in 41, modified in 24, reversed in 15 and remanded in 14. The average duration of appeals was 21 days, the same as in the previous year.

30. In the Judicial Commissioner's Court there were only 14 second appeals and no regular appeals, as against 6 regular and 22 second appeals in 1880.

31. The total number of applications filed for execution of decrees was 2,183 as against 1,600 in the previous year. Of these 206 were disposed of by transfer in 725 satisfaction was obtained in full, in 251 in part and 862 applications were wholly infructuous, leaving 139 pending at the close of the year.

32. Four applications for declaration of insolvency were filed, as against 6 in the previous year. The application was granted in one case and the other three were rejected.

33. The number of processes issued during the year were 16,168 against 12,897 and Rs. 8,367 were collected as fees. Of this amount the Civil Judicial Establishment of Process Services cost Rs. 4,370, leaving a net profit of Rs. 3,996 against Rs. 3,137 in 1880.

REGISTRATION.

34. The number of documents registered was 576 or 69 more than in the previous year; while the value involved in documents registered was Rs. 13,28,929 or Rs. 4,91,727 more than in the previous year; the average value of each registration, movable and immovable, rose to a much higher figure than that of the previous year, being Rs. 2,998 and Rs. 2,200, respectively, as against Rs. 2,611 and Rs. 1,524 in 1880—81. This considerable increase in the aggregate and average values of documents registered is ascribed, as regards movable property, to increased activity in the coffee trade and large advances made by merchants on the crop; and in case of immovable property to large sales and mortgages of valuable coffee land which the owners could not retain owing to pecuniary embarrassments caused by heavy losses during a succession of bad years.

35. The percentage of fees on the value of property registered amounted to 3·27 on immovable and 6·10 on movable property as compared with 2·67 and 5·33 respectively in the previous year. The average registration fee per document rose from Rs. 5—9—11 to Rs. 6—8—9.

36. The total income of the year amounted to Rs. 4,204 or Rs. 881 more than in the previous year, but the expenditure did not exceed Rs 1,670 and the balance to credit at the close of the year was Rs. 2,535 as against Rs. 1,679 in 1880—81. The percentage of expenditure on income was 39·7 as against 49·47 in the previous year.

MUNICIPAL ADMINISTRATION.

37. There are five Municipalities in Coorg or the same number as in 1880—81 which are administered under Act XVIII of 1864 as amended by Act XXII of 1865.

38. Two-thirds of the members of each board consist of non-official members whose election is regulated by a Code of Rules framed under Section 2 of the Act.

In the Municipalities of Mercara and Virarajendrapet, advantage has been taken of this privilege, but in the minor Municipalities the selection of members is vested in the Subedars acting under the orders of the Commissioner, as the inhabitants are supposed not to be sufficiently advanced to exercise the right of voting.

39. The receipts for the year amounted to Rs. 15,919 against Rs. 14,213 of the previous year. The increase is chiefly due to the revision of the tax on houses in Mahadeopet, and to the levy of rent on the new market at Virarajendrapet. The main sources of Municipal revenue are;—octroi, house tax, tax on professions, market fees and fines.

40. The incidence of taxation per head of population varied from annas 2, pies 5 in Kodlipet, to Rs. 1—5—8 in Virarajendrapet.

41. The daily removal of rubbish and filth and the cleansing of surface drains were carried out at a cost of Rs. 5,342 and other desirable sanitary improvements were effected at a cost of Rs. 1,078.

42. The total outlay on public works amounted to Rs 7,144, of which a sum of Rs. 3,607 was spent in completing the market at Virarajendrapet. Some drains and dust bins were constructed and lanthana eradicated in some places. Repairs were also executed to existing roads, drains, latrines and dust bins at a total cost of Rs. 2,004—3—7.

MILITARY.

43. The Head-Quarters and Right Wing of the 40th Regiment. N. I. garrisoned Mercara till the 14th February 1882, when they were relieved by the Head-Quarters and Right Wing of the 10th Regiment, N. I.

44. The strength of the garrison consists of 12 officers, 42 non-commissioned officers, 321 rank and file and 57 paid camp followers. There are no out-posts in Coorg, but a Wing of the 10th Regiment, N. I. is detached to the French Rocks near Mysore.

45. The 10th Regiment suffered a little at first in health consequent on the change of climate, from the heat of Madras, where they were last stationed, to the cold and damp climate of Coorg.

IV. PRODUCTION AND DISTRIBUTION.

AGRICULTURE.

46. The extent of land under food grains shows a very slight increase. There were 72,940 acres of land cultivated under rice and 1,417 acres under dry crops. The net increase in the cultivated area is only 49 acres.

47. There are in the Province 212 coffee plantations owned by Europeans, and 4,594 by Natives, comprising an area of 77,474 acres, or a little more than one-thirteenth of the area of the whole District. The area of land held by the former is 41,507 acres on an assessment of Rs. 76,129 and by the latter 35,967 acres paying an assessment of Rs. 66,440. Besides which much coffee is grown by the latter on their *bânes* (plots of forest land attached to rice fields free of assessment) and cardamoms in the Ghat forests, the receipts from which are credited to the head of Forests. The average size of each estate held by Europeans is 196 acres and by Natives 8 acres. Of the whole area 40,350 acres are bearing, producing 6,125 tons of coffee or on an average 3 cwts. the acre, but the average yield in most European estates which are much better cultivated than Native estates, reaches 7 cwts the acre. Taking the average cost of cultivation at Rs 120 per acre on European estates, and Rs. 40 on Native, each cwt. of coffee costs Rs. 27. The number of persons resident on European coffee estates and large Native estates is 26,893 accor-

ing to the returns obtained in the last census which was taken on the 17th February 1881, but is about 10,000 more during the picking season.

48. The cost of cultivation at the rate per acre assumed above comes to nearly 32 lakhs of rupees. Of this not less than 60 per cent on an average may be estimated as having been paid to laborers in wages. Calculating that 26,893 laborers, which is about the average number employed throughout the year, received Rs. 6 each per mensem, upwards of nineteen lakhs of rupees were expended for labor during the year. The value of the coffee produced, taking the selling price to be, on the average, 80 Rs. per cwt. on the spot, was about 36 lakhs of rupees.

49. Owing to the demand for labor on coffee estates and the necessity that exists of importing laborers from Mysore to meet it, high wages obtain, the rates being equal to those given in most hill-stations. Notwithstanding that the famine in Mysore swept away nearly a million of the class of population from which labor is drawn, there was no difficulty in obtaining it throughout the year, and at times the labor-supply exceeded the demand. The Public Works Department had no difficulty in this respect, although their requirements were on a larger scale than usual. Doubtless the famine compelled numbers of the agricultural class, who were on the brink of poverty, to seek more remunerative work as coolies, and the season in Mysore opening unfavorably numbers more were induced to seek elsewhere the means of meeting their land tax. Large bands of coolies came up from the Western Coast also to do piece work. Carriage was abundant, and is likely to prove more so owing to the extension of the Railway to Mysore.

50. Cattle were comparatively free from murrain during the past year, consequently the losses according to the talukwar returns were only 3,811 head or 707 less than in the previous year.

51. The realizations from Native coffee fell from Rs. 580 to Rs. 500 the ton owing to the glut of that berry in the Home market. Much of the coffee exported to England has however realized good prices there. The price of cardamoms fell from Rs. 2-5-0 to Rs. 2-2-0 the lb. The price of 2nd sort rice, which is the staple food of the country, was Rs. 3-7-8 the maund of 80 lbs or Rs. 0-8-5 the maund higher than in the year previous. Ragi and horse-gram, which are grown only in Eastern Coorg, also rose from Rs. 1-9-7 and Rs. 1-9-0 per maund to Rs. 2-0-0 and Rs. 2-1-0 respectively.

WEATHER AND CROPS.

52. A rain-fall of only 110 inches was registered in Mercara against 137 in 1880—81. In parts of North and South Coorg, the rain-fall was as low as 45 inches.

In Central Coorg, the yield of the rice crops was about the average, but in South Coorg it was short and in many parts of North-East Coorg it proved an entire failure, the ryots of some villages having reaped little more than the straw.

The ragi crop in some parts was good, although it failed in others. But the loss in ragi was compensated for by a good yield of horse-gram which was reaped later on in the season.

53. Owing to favorable showers at the blossoming season, a good coffee crop was picked in most parts of South Coorg, known as the "Bamboo," but at the end of the year difficulty was felt in pulping for want of water in the streams. A few estates round Suntikoppa also did well, but in North Coorg the yield was much affected by the absence of timely rain, the blossom not having been brought out until the showers which ushered in the monsoon fell.

54. There was a good yield of cardamoms which compensated to some extent for the heavy fall in price which took place consequent on increased production in Manjarabad, Travancore and Ceylon.

HORTICULTURE.

55. The Nalknad or the drooping variety of coffee shrub has completely supplanted the "Chick" or Mysore variety. Large quantities of seed have been exported to Manjarabad and recently to Ceylon. Though the bean is larger and inferior

in quality to the Chick, the shrub is less liable to leaf disease and gives a much larger and more certain yield.

56. *Liberian Coffee.*—Liberian coffee, after years of trial, seems now to be discarded as unsuited to the climate of Coorg.

57. *Cardamoms.*—The season being favorable, a large crop of cardamoms was secured by the lessees of the Government forests on the Western Ghats, but prices fell heavily owing to a glut in the market. Cardamoms have this year been successfully propagated from beds, which has disproved the popular belief of the Coorgs that its growth was dependent solely on the fall of large trees in the Ghat forests.

58. *Cinchona.*—Considerable attention has been paid to the cultivation of cinchona, especially on those estates in which coffee has not succeeded. From the returns which have been obtained from planters, the extent of land under cinchona cultivation may be put down at 771 acres and the number of plants at 617,156 in all. The *Succirubra* variety is that usually propagated, but a few plants of the valuable but expensive *Ledgeriana* have been put down and it has to be ascertained yet how they will succeed in Coorg. The bark of the former has realized from 8 to 10 shillings in the pound in England. In consequence of the fear entertained that the market is likely to be affected by the large extension of cultivation on the Nilgiri Hills, Wynad Java, Ceylon, Jamaica and other countries, the planters of Coorg feel hesitation in embarking in the enterprise to any great extent.

59. *Cocoa, Oil plant, Rain tree, and Rubber tree.*—With respect to other products, such as cocoa, the oil plant and the rain tree, their introduction, though successful, has not passed beyond the experimental stage. It is hoped also that the rubber tree may be successfully introduced into the country, as many parts of it seem well adapted for its cultivation. Great tracts of suitable land are also available for the cultivation of the Rhea fibre.

60. *St. Michael's Orange.*—Through a misunderstanding the plants expected from the Kew gardens were not despatched and thus the intended experiment of grafting the valuable orange on Coorg stocks has not been carried out.

FORESTS.

61. The total area of the Reserved forests at the close of the year was 234 square miles or 149,855 acres, as against 149,270 shown in the return for the year previous. There was no addition made during the year, but the seeming increase in the area is due to the omission in the returns of 1880-81 of the Kattepura forest, measuring 585 acres. All the Reserved forests, except Urti and Kerti, have been surveyed.

62. The demarcation of the Ghat forests has been completed. During the year 63 miles of new line were opened up at an average cost of Rs. 6 per mile.

63. It is to be regretted that attempts to conserve forests from fire during the year were not so successful as in the past three years. Out of the area of 123,049 acres for which protection was attempted, only 46,556 acres were successfully conserved at a cost of Rs. 1,417; the failures amounted to 76,493 or 62·16 per cent of the so-called protected area.

64. An area of 109½ acres was added during the year to the plantations already in existence, which measured in the previous year 327¾ acres. The working of "Coupes" has considerably increased the timber supply and has enhanced the income from timber sales. The planting operations generally were not very successful owing to scanty and unseasonable rain.

65. Of the 21 cases of breach of Forest Rules prosecuted during the year, convictions were obtained in 14 cases and 31 persons were punished.

66. There were for disposal 146 applications for waste lands during the year. Of these 132 were disposed of, leaving 14 pending at the close of the year.

67. The collections and sales of the Department during the year are as follows:—

			Collections.	Sales.
Teak	..	C. I.	23,111	15,323
Do Poles	..	No.	119	68
Junglewood	..	C. I.	15,817	13,043
Do Poles	..	No.	1,055	310
Firewood	..	(Carts)	1,997¾	1,387¾
Bamboos	..	No.	74,255	33,199
Sandalwood	..	Tons	126¾	60¾

68. The actual realizations by sale of timber came to Rs. 19,745 or Rs. 6,193 more than in the previous year. Bamboos and poles were sold from the depôts to the amount of Rs. 5,024 against Rs. 1,478 in the previous year.

69. The receipts from sandalwood by sale of 60¾ tons amounted to Rs. 14,059. The falling off is due to restricted sales for want of good prices.

70. The financial results compared with those of the previous year are as follows:—

	1880—81.	1881—82.
Receipts	87,857	1,00,364
Charges	56,487	59,858
Surplus	31,370	40,506

MINES AND QUARRIES.

71. Granite slabs are quarried to some extent from rocks near Fraserpet, Kodlipet and Somavarpet. They are used for the pavement of house yards and drains. Laterite is used for building purposes and for pavement at Virarajendrapet, and in the surrounding Nads.

72. From the strong resemblance of the country to the Wynad, there is a probability of gold being found in the quartz reefs which exist on the Brahmagiri hills and in many other parts of the country. Prospecting operations are, however, suspended until the gold mines in Mysore and the Wynad are known to pay.

MANUFACTURES.

73. Manufactures do not flourish to any extent in the Province consequent on the great demand for labor for agricultural operations and the high rate of wages prevailing. One hundred and fourteen looms were at work in the villages of Seringala, Somavarpet, Sanivarsante and Kodlipet in North Coorg, in the manufacture of the ordinary coarse cloth worn by the lower classes of the people. The weavers at Seringala manufacture also the red and black sashes which are worn by the poorer classes of Coorgs.

74. About a dozen artizans add to their means by making the knives which are worn by Coorgs as part of their ordinary dress. The sheaths are usually mounted in silver and some of them are of considerable value. The number of knives turned out yearly does not exceed 200 of the estimated value of Rs. 6,000. The steel used is of local manufacture and of inferior quality.

75. The Tilery at Mercara now owned by Mr. East is doing a good business in manufacturing large tiles, which are known as "Mangalore tiles," and for which there is a considerable local demand. The clay obtained is of excellent quality and some of the tiles manufactured have been found to stand a greater strain than those turned out at Mangalore.

76. A few pot-makers are to be found in some of the villages in North Coorg and a few braziers in South Coorg. They make the primitive pots in common use all over India.

TRADE.

77. Both the coffee and cardamom crops gave a larger yield than in the previous year. The heavy fall in price has, however, led to the value of produce exported being less than was expected.

78. As in the previous year, the demand for live-stock was maintained, but the price given was lower owing to the market being better supplied by cattle brought for sale by needy ryots from Mysore. Milch buffaloes with calf at heel, for which Rs. 30 to Rs. 40 were asked in the previous year, sold for Rs. 25 to 30 only. The number of cattle and sheep bought reached to 15,366 head at a total estimated cost of Rs. 67,300. Coorg is dependent on Mysore for its supply of draft cattle and of sheep, owing to the nature of the climate and pasturage being unsuited to the successful breeding of live-stock.

79. Under the head of flax manufactures are included gunny bags, which are imported largely from Calcutta for the transport of coffee to the coast. The small quantity of hemp grown in the Ramaswamikanave hobli is used mostly for the manufacture of ropes and pack saddles.

80. An increase is shown in the quantity of beer and British spirits. Though the price of the latter is much higher, it was purchased by many of the natives in preference to the locally manufactured arrack, which is weaker in strength and of inferior quality.

81. Kerosine oil is gradually supplanting the vegetable oils manufactured locally; the price of the latter has, however, risen.

82. There was a small decrease in the importation of salt towards the end of the year owing to the expectation of a fall in price consequent on the approaching reduction in duty.

83. There is a steady demand for bone, oil cake and fish manure for use on coffee estates, which is likely to increase as the Natives begin to appreciate the advantages of high farming equally with Europeans. The expenditure by the latter on manure is roughly estimated at Rs, 77,610. The sales of Government timber and sandalwood realized Rs. 31,800 against Rs. 44,815 in the year previous. The decrease shown of Rs. 13,015 is entirely in the latter item owing to diminished demand.

84. Owing to the smallness of the harvest, Coorg imported towards the end of the year rice in large quantities from South Canara, and other grains from Mysore. The fall in price in those localities kept the prices down in Coorg. The quantity of grain exported from the south of Coorg to Malabar also decreased from a similar cause.

PUBLIC WORKS.

85. The budget grant for the year was Rs. 1,60,000 for "Military" and "Other Services" against which an expenditure of Rs. 1,49,194 was incurred, showing a lapse of Rs. 10,806 , of the amount lapsing Rs. 7,781 occurred under "Military" owing to the non-receipt of requisitions from the Military Department. The distribution of grant and outlay over the different service heads will be seen from the Statement appended

86. MILITARY—*Original Works.*—No major works were in progress during the year and the only minor work (4 culverts at the rifle range, Mercara,) was completed at a cost of Rs. 108.

	Rs.
Grant	2,860
Outlay	108
Lapse .	2,752

87. MILITARY—*Repairs.*—The principal work executed under this head was repairing the Palace in the Fort of Mercara for Rs. 1,145 and calls for no special remark.

	Rs.
Grant	5,000
Outlay	1,451
Lapse.. .	3,549

88. OTHER SERVICES, CIVIL BUILDINGS.—*Original Works—Improvements to the Jail at Mercara.*—This work was completed during the year, but the accounts have not been closed as the materials at site have to be transferred to other works. The expenditure during the year was Rs. 11,562 against the budget allotment of Rs. 11,600.

89. Besides the above, there were four other major works under progress, *viz.*, re-roofing Boarding school and Principal's quarters of the Central College, Mercara, and constructing Nad Cutcherries at Sanivarsante, Siddapur and Ramaswamikanave. The first one was completed at a cost of Rs. 3,656 and the others were nearly finished.

	Rs.
Grant	22,000
Outlay	20,430
Lapse..	1,570

90. CIVIL BUILDINGS—*Repairs.*—The work consisted of repairing eight buildings at a cost of Rs. 1,802.

	Rs.
Grant	2,000
Outlay	1,802
Lapse..	198

91. COMMUNICATIONS.—*Original Works.—Opening out road from Virarajendrapet to Periyapatna.*—The progress of this important road was satisfactory, the amount expended during the year being Rs. 23,007 against an allotment of Rs. 21,500. The road was opened to traffic throughout the year, but some parts are still in bad condition.

92. *Opening out road from Mercara to Siddapur.*—Satisfactory progress was made in widening the road by cuttings through rock and hard soil. The road was kept open for traffic notwithstanding the heavy landslips that occurred in the monsoon. The grant for the year was Rs. 21,400, of which Rs. 20,737 was expended.

93. *Constructing Bridge over the Cauvery on Mercara-Siddapur Road.*—Rupees 3,058 were spent during the year on account of preliminary operations and collection of materials. Difficulty was experienced in selecting a site near to the line of the existing road. Rough plans and estimates only have been prepared. Little or no material has been collected and the project is not yet ready for submission. Details of expenditure under this head will be found in Statement appended.

	Rs.
Grant	49,900
Outlay	46,993
Lapse..	2,907

94. COMMUNICATIONS.—*Repairs.*—The roads (182 miles) generally were maintained in fair order throughout the year. The approaches to Periyambadi Ghat became almost impassable during the monsoon and the allotment for the year was found quite inadequate to put it in thorough repair.

	Rs.
Grant	41,390
Outlay	41,536
Excess Outlay..	146

95. DISTRICT FUNDS.—The expenditure for Works and Repairs was Rs. 16,088 against a grant of Rs. 22,266, showing a lapse of Rs. 6,178. This lapse chiefly under Repairs is attributable partly to scarcity of labor and partly to want of energy of the District Surveyor, Mr. Grove, whose services have since been dispensed with. Details of expenditure compared with grants will be found in Statement appended.

96. CIVIL BUDGET.—Besides the Imperial and District Fund works, the Department supervised works appertaining to this budget. The grant for the year was Rs. 5,541, of which only Rs. 2,048 were spent. The lapse Rs. 3,493 is chiefly due to the unusually limited number of requisitions from the Civil Department. The

works carried out during the year are of small importance and no remarks appear necessary.

97. GENERAL OBSERVATIONS.—It would appear from the figures noted in the margin that there has been an improvement in progress this year over that of the past two years, due probably to a gradual increase in the amount of labor available consequent upon the gradual recovery of the country from famine and to the satisfactory manner in which the Executive Engineer Mr. F. Sharp and the Sub-Divisional Officers Messrs. Morton and Hawke have interested themselves and discharged their respective duties.

TELEGRAPHS.

98. The sale proceeds of telegraph labels amounted to Rs. 5,460 against Rs. 5,402 in the year previous, showing a slight increase of Rs. 58.

99. The number of messages transmitted in comparison with the previous year was :—

	1880—81.	1881—82.
Sent	1,939	2,426
Received	1,656	2,239
In transit	3,180	3,334

100. The increase in the number of messages received and sent is due to the revised tariff which came into force on 1st January 1882.

101 The cost of establishment inclusive of all charges for maintenance came to Rs. 23,107 against Rs. 13,563 in the previous year. The cause of the large increase of Rs. 9,544 in expenditure was owing to the re-construction of the line between Mercara and Tellicherry.

POST OFFICE.

102. The total postal receipts during the last year amounted to Rs. 15,987 being only Rs. 3 less than in the previous year. Deducting Rs. 4,839 paid on account of service labels, the actual income derived from the public was Rs. 11,148. The introduction of post cards and the reduction of registration fees, which came into operation during the year, accounts for the small falling off. The prepayment of postage on parcels in cash, which was brought into force from the 1st July 1881, affected also the receipts in Coorg.

103 The 16 District Post Offices are placed on the same status as the Imperial Sub-Post Offices and afford similar postal facilities. The village delivery arrangements are still in a very backward state.

104. The expenditure on the Imperial Post was Rs. 7,019 including commission, and that on the District Post was Rs. 6,504, against the budget grant of Rs. 7,024. The net profit to Government was Rs. 2,463, which may be taken as the contribution of Coorg towards Imperial outlay.

V. REVENUE AND FINANCE.

(A.) IMPERIAL.

105. The total demand of the year amounted to Rs. 7,12,109, which is Rs. 12,497 more than in 1880—81. The increase would have been considerably larger had not there been a diminution in the demand under forests of Rs. 18,163. The items which show an increased demand are land revenue amounting to Rs. 25,168, abkari Rs. 3,644, and miscellaneous Rs. 1,847.

106. The land revenue demand for the year was Rs. 3,46,350. The increase of Rs. 25,168 arose partly from progressive increase of assessment on lands taken up for rice and coffee cultivation, and partly from demand of assessment on lands found on survey to be in excess of the estimated area. The sale of waste lands realized Rs. 8,646 or Rs. 6,698 more than in the previous year. The receipts under this head are further swollen by the transfer of mohatarfa (house-tax) paid by agriculturists and others and of Nazarkánike, (the donation paid by the Jumma ryot on being invested with the proprietary right to a farm) which has been made to correspond with the classification in the budget.

107. The forest revenue demand was Rs. 87,253. The decrease of Rs. 18,163 is due to the short sales of sandalwood.

108. The demand on account of excise on spirits was Rs. 1,57,041 having been augmented by the 2nd yearly increment of Rs. 5,000 in the minimum revenue guaranteed by the contractor. The monthly contribution of Rs. 153 levied from the contractor for the pay of the detective establishment maintained at the Sudder Distillery, which was credited formerly as revenue receipts, has been omitted from the accounts under the instructions of the Comptroller General and is now treated as "Advances recoverable."

109. The revenue from the sale of stamps reached the sum of Rs 76,900. The increase of Rs. 11,743 may be attributed to increased litigation arising from the failure on the part of Native coffee planters to fulfil their engagements, consequent on the very short coffee crop picked the year before, and to the desire of traders, who

had advanced money on the crop, to realize their outstandings. In one suit the large sum of Rs. 3,000 was paid on account of stamp duty.

110. Under the provisions of Regulation III of 1880, interest has been charged on arrears of revenue to the extent of Rs. 2,249 against Rs. 128 in the previous year. The realizations of the Registration Department rose to Rs. 4,204 or Rs. 881 more than in the previous year. The increase is attributed to valuable coffee estates having changed hands and to larger advances having been made on the coffee crop, the yield of which was greater than in the year previous.

111. The balance outstanding at the close of 1880—81 was Rs. 2,01,761, but from this sum has to be deducted Rs. 153 being the contribution due by the abkari contractor for the maintenance of the detective establishment at the Sudder Distillery, and Rs. 12,571 struck off as irrecoverable and remitted. This leaves a balance of Rs. 1,89,037 to be added to the demand of the year, which was, as above stated, Rs. 7,12,110. The total amount for collection thus became Rs. 9,01,147. The realizations amounted to Rs. 6,47,494, leaving a balance of Rs. 2,53,653. But in this balance is included a sum of Rs. 1,75,231, the demand of the current year falling due in instalments after its close, of which as much as Rs. 1,22,762 has been recovered up to the end of June, thus leaving only Rs. 1,30,891 still to be recovered.

112. The gross actual receipt on account of imperial revenue amounted to Rs. 6,54,476. After deducting charges of collection against income amounting to Rs. 1,91,924, the net receipts were Rs. 4,80,198. The expenditure under all the different heads, such as Military Rs. 1,17,243, Public Works Rs. 1,36,016, Education Rs. 22,497, and other charges, amounted to Rs. 4,03,418, showing a surplus on account of imperial revenue of Rs. 76,780.

113. The actual realizations on account of land revenue amounted to Rs. 3,07,233 against the demand of Rs. 3,46,350. The receipts were less by Rs. 46,061 than those of the previous year, which were swollen from the stringency of the measures then adopted for the collection of arrears.

114. Owing to the failure of the arrack contractor, whose contract had to be cancelled, the large sum of Rs. 53,034 was outstanding at the close of the year, but is recoverable.

115. Charges against income including refunds amounted to Rs. 1,92,751 against Rs. 1,65,367 in the year before. One of the chief causes of this difference was a large increase of Rs. 6,768 in refunds paid from land revenue granted on account of lands found on survey to be smaller than the estimated area. The charges under head Political Pensions, Forests, Telegraph, and Registration all increased.

116. The expenditure from net income rose to Rs. 4,03,418 showing an increase of Rs. 57,470 over the amount of the previous year, which was Rs. 3,45,948. This increase was chiefly due to the payment of enhanced rate of salary to the District Magistrate, strengthening the process establishment, supply of furniture to Courts, appointment of Public Prosecutor, the maintenance throughout the year of the Jail and Treasury Police guard, increased charges under head Superannuation and Retired Allowances, and to an increased expenditure of Rs. 21,459 in improving the road from Virarajendrapet to Periyapatna and of the ghat road from Mercara to Siddapur. The sum of Rs. 3,058 spent in collecting materials for the construction of the Cauvery bridge and the census expenditure of Rs. 2,374 debited to the accounts of the year, further contribute to swell the charges.

117. At the close of 1880—81 the cash balance in the Coorg Treasuries was Rs. 7,14,629. The net revenue collected including items of local revenue was Rs. 5,31,837; revenue received but paid away and charged against income amounted to Rs. 1,75,105; deposits amounted to Rs. 72,396; receipts on account of bills drawn on other treasuries amounted to Rs. 1,41,463, of which Rs. 99,386 were for Post Office orders, remittances from other treasuries were received to the extent of Rs. 66,000, and these sums, with a small amount on account of repayment of advances, bring up the total transactions of the Coorg Treasury on the credit side to Rs. 17,04,334. Disbursements which include a remittance of Rs. 4,52,043 to Madras in currency

notes, and uncurrent coins amounted to Rs. 11,66,174 leaving a cash balance of Rs. 6,38,160 in the Treasury at the close of the year.

118. Thus it will be seen that although a Government remittance of Rs. 4,52,042 was made from Coorg during the year, the cash balance was only reduced by Rs. 1,76,469. The surplus revenue including Local Funds was Rs. 85,018, and remittances were received to the extent of Rs. 66,000.

(B.) REVENUE AND FINANCE OTHER THAN IMPERIAL.

District Funds.

119. The balance outstandings on account of District Funds at the beginning of the year was Rs. 1,143; the demand of the year was Rs. 29,263 bringing the total amount for collection to Rs. 30,406. Collections and remissions amounted to Rs. 28,476, the balance left for collection being Rs. 5,243. A sum of Rs. 3,313—12—0, which was collected in advance of the demand for 1882—83, is included in the collections. There was no expenditure under the head of cost of collection, as the tolls on roads were leased out for a lump sum of Rs. 17,905. The net revenue was Rs. 28,459. The expenditure amounted to Rs. 43,420.

Municipal Funds.

120. Municipal Funds opened with a balance of Rs. 13,766; the income of the year was Rs. 15,919, exhibiting an increase over the previous year of Rs. 1,706, chiefly under the head of market rent in Virarajendrapet under which Rs. 881 was realized and Rs. 833 from revision of the rates of taxation on houses in Mercara. The expenditure amounted to Rs. 16,168, of which Rs. 820 were refunds and cost of collection charged against income, and Rs. 15,348 was disbursed from net revenue. The balance to the credit of Municipal Funds at the close of the year was Rs. 13,517.

VI. VITAL STATISTICS AND MEDICAL SERVICES.

CENSUS.

Nil.

BIRTHS AND DEATHS

121. According to the Census of 1881, which is taken as the basis for the calculation of vital statistics, the population of Coorg numbered 178,302 souls, showing an increase of 9,990 over that of the Census of 1871.

122. The number of births registered is 2,829 or 15·86 per mille of population, as against 2,012 or 11·95 in 1880, and deaths 3,192 or 17·90 per mille against 3,612 or 21·64 in 1880. The number of males born to every 100 females was 105·60, and the number of male deaths to every 100 females is 116·11. The gradual increase which is apparent in the birth rate since the introduction of the new system of registration in 1879 points to some improvement in this respect; but at the same time it is probable that the excess of deaths over births is due to the inaccuracy of the returns. The preponderance of male deaths over female is due to the excess of male population in the Province and not to higher mortality among males.

123. About seven-eighths of the registered mortality was from fever; cholera and small-pox scarcely made their appearance during the year. The death rate as compared with that of the previous year is low.

124. The death rate amongst the troops was 34·71 against 32 in 1880. In the Mercara Jail the percentage of deaths has decreased from 99·8 to 56·69.

EMIGRATION.

Nil.

MEDICAL RELIEF.

125. The Civil Dispensaries at Mercara and Virarajendrapet each afforded accommodation to 16 in-patients. The average daily sick was 28·10 in-patients and 161·91 out-patients for both Dispensaries. The total number treated during the year was 9,094 against 11,454 or 2,360 less than in 1880. The decrease is due to the increased prosperity of the country and better health of the general public and does not indicate any decline in the popularity of the institutions.

126. In order to meet the requirements for more ample accommodation the Dispensary buildings at Mercara have been enlarged by the purchase of an adjoining house the cost of which was entirely met from subscriptions, and by the construction of three new wards with latrines, &c., the cost being borne by the Local Funds.

SANITATION.

127. In the two larger Municipalities of Mercara and Virarajendrapet some desirable improvements in sanitation were effected during the year. A sum of Rs. 4,000 was spent in the latter Municipality on the construction of a large market containing 80 open and 22 closed stalls. In Mercara four covered drains were built, and a large well, on which Rs. 1,275 had been spent in former years, was completed at a total cost of Rs. 583. Besides this, a sum of Rs. 206 from Imperial Funds was expended on civil sanitary works during the year. Of this sum Rs. 39 were spent for repairing the latrine outside the Mercara fort and Rs. 167 for sinking a well at Siddapur.

VACCINATION.

128. The number of operations rose from 3,808 to 4,887 and the percentage of successful cases was 90·11, the highest on record, against 88 5 in the previous year.

129. The average number of operations performed by each Vaccinator was 977·4 against 898·2. In addition to this, the medical subordinates attached to the Dispensaries at Mercara and Virarajendrapet vaccinated 498 cases, of which 392 or 78·71 per cent were successful.

130. The vaccination establishment, which consists of 1 Inspector and 4 Vaccinators, was maintained during the year at a cost of Rs. 1,174, against Rs. 1,195 in the previous year, and the average cost of each success ful case of vaccination fell from 5 annas, 7 pies to 4 annas, 3 pies.

VII. INSTRUCTION.

131. There has been a steady advance in the educational work in all directions during the year. The number of schools increased from 59 to 63; the attendance rose from 2,792 to 3,233, and the fees realized amounted to Rs. 2,203 as against Rs. 1,950 in the previous year.

132. The Central School at Mercara consisted of three departments, *viz.*, the High School, Middle School and Primary School, and contained in the aggregate 313 pupils as against 302 in the previous year. The increase is confined to the Middle School only, the attendance in which rose from 92 to 119. Four students as against

two in the previous year passed the Matriculation examination, and for the first time nine students from the Central School passed the Middle School examination.

133. A new source of income to foster emulation in the Central School was established during the year by the Chief Coorgs in the shape of a "Prize Fund" which is called "Thomson's Prize Fund" in honor of Colonel H. G. Thomson, the late Superintendent of Coorg. A sum of Rs. 1,000 has been subscribed and invested in 4 per cent Government paper.

134. There were during the year 6 Government Primary schools, 51 Vernacular and 3 Aided schools, making the total of Primary schools 60 as against 56 in the previous year. With the increase in the number of Government schools, the attendance also rose from 2,553 to 2,978 and in the Aided Schools from 89 to 91.

135. The Inspector of Schools visited 40 schools during the year and in doing so travelled 472 miles. The Sub-Deputy Inspector travelled 999 miles and visited 174 schools. Of these 39 were visited thrice, 7 four times, 2 six times, 1 five times and 1 eight times.

136. The Endowment Plantation Fund bids fair to establish itself as a steady and permanent source of support to the Central School. The rent for the lease of the estate brought in Rs. 3,100, but of this sum only Rs. 2,112 were utilized for educational purposes, the rest was paid towards the liquidation of the debt on the estate, which has now been reduced to Rs. 1,603 and by the end of another year this sum also will have been paid off and the whole income will then be available for the objects of the fund.

137. The total income of the year amounted to Rs. 7,422, of which Rs. 2,203 were paid as fees, the rest, *viz.*, Rs. 5,219, from the Local Funds. Government expenditure on education amounted to Rs. 22,496 against Rs. 23,246 in the previous year. Of this sum Rs. 7,063 were met from Local Funds.

VIII. ARCHÆOLOGY.

Nil.

IX. MISCELLANEOUS.

ECCLESIASTICAL.

138. A Government Chaplain is allowed for Mercara. The number of members of the Church of England is 240, consisting of 220 Europeans and East Indians and 20 Natives. The expenditure by Government amounted to Rs. 5,208.

139. The Roman Catholic Mission has four churches situated at Mercara, Virarajendrapet, Fraserpet and Amatti with two priests. The number of members is given at 1,930. The church at Virarajendrapet receives an allowance of Rs. 240 per annum from Government.

140. The Basel Evangelical Missionary Society have two churches situated at Mercara and Anandapur. The number of members is 166.

MUZRAYI.

141. The fixed annual grant to Muzrayi Hindu institutions such as temples, is Rs. 17,856 in cash, in allowances Rs. 990, and by land endowments Rs. 9,546, making a total of Rs. 24,393. The expenditure on the four temples of Talakaveri, Bhagamandala, Onkaresvara, Padi and Somesvara and on the Raja's tombs at Mercara, is supervised by a native committee consisting of three members. It amounted to Rs. 16,214. There was also Rs. 23,570 at the credit of the Temple Fund on the 30th June 1882 invested chiefly in loans.

142. A sum of Rs. 54 is allowed to Muhammadan institutions in land and in cash endowments.
